## WAYNE STATE UNIVERSITY SCHOOL OF MEDICINE GRAND ROUNDS Department of Neurology 8D UHC, January 2015

## NEUROLOGY GRAND ROUNDS SCHEDULE IS AVAILABLE AT: http://neurology.med.wayne.edu/

	8:30 am – 10:00am, Lecture
January 2, 2015	CANCELLED
LOCATIÓN:	Harper University Hospital Kresge Auditorium
January 9, 2015	Joyce Benjamins, PhD Professor Department of Neurology
	Professor, Department of Neurology Associate, Immunology/Microbiology Wayne State University School of Medicine
	Wayne State University School of Medicine
	Detroit, MI
TOPIC:	"Oligodendroglia Research and White Matter Disease: Past, Present, and Future"
<b>OBJECTIVE:</b>	1. To review the history of oligodendroglia research. 2. To learn about current research and future directions.
SUPPORT:	No Commercial Support
LOCATION:	Harper University Hospital Kresge Auditorium
January 16, 2015	Kumar Rajamani, MD, DM Associate Professor of Neurology
	Associate Professor of Neurology Department of Neurology
	Wayne State University School of Medicine
	Detroit, MI
TOPIC:	"Top 5 Questions in Practical Stoke Management"
<b>OBJECTIVE:</b>	1. Understand principles of secondary stroke prevention. 2. Understand practical "day- to-day" issues in stroke management. 3. Understand evidence based management in
	stroke.
SUPPORT:	No Commercial Support
LOCATION:	Harper University Hospital Kresge Auditorium
	nurper emversity nospital mesge nutresternam
January 23, 2015	Sandeep Mittal, MD
	Sandeep Mittal, MD Assistant Professor of Neurosurgery
	Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine
	Sandeep Mittal, MD Assistant Professor of Neurosurgery
	Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine
January 23, 2015	Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine Detroit, MI <i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i>
January 23, 2015 TOPIC:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI            "Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"         1. Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of         IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for     </li> </ul>
January 23, 2015 TOPIC: OBJECTIVE:	<ul> <li>Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine Detroit, MI</li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i></li> <li>1. Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for brain tumors.</li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT:	<ul> <li>Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine Detroit, MI</li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i></li> <li>1. Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for brain tumors.</li> <li><i>No Commercial Support</i></li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT: LOCATION:	<ul> <li>Sandeep Mittal, MD Assistant Professor of Neurosurgery Department of Neurosurgery Wayne State University School of Medicine Detroit, MI</li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i></li> <li>1. Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for brain tumors.</li> <li><i>No Commercial Support</i></li> <li>Harper University Hospital Kresge Auditorium</li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI      </li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i> <ol> <li>Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of                 IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for                 brain tumors.         </li> </ol> </li> <li><i>No Commercial Support</i> </li> <li>Harper University Hospital Kresge Auditorium         </li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT: LOCATION:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI      </li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i> <ol> <li>Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of                 IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for                 brain tumors.         </li> </ol> </li> <li><i>No Commercial Support</i> </li> <li>Harper University Hospital Kresge Auditorium         </li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT: LOCATION:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI      </li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i> <ol> <li>Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of             <li>IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for             brain tumors.</li> </li></ol> </li> <li><i>No Commercial Support</i> </li> <li>Harper University Hospital Kresge Auditorium         <ol> <li>Yu-tze Ng, MD, FRACP</li> <li>Gary Dudley and Charlie Amato Endowed Chair in Pediatric Neurology             Professor and Chief of Neurology             Children's Hospital of San Antonio, Department of Pediatrics</li> </ol></li></ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT: LOCATION:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI            <i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i>         1. Describe the kynurenine pathway of tryptophan metabolism. 2. Describe the role of         IDO and TDO in immune resistance. 3. Describe the role of molecular PET imaging for         brain tumors.         </li> <li><i>No Commercial Support</i>         Harper University Hospital Kresge Auditorium         Yu-tze Ng, MD, FRACP         </li> </ul>
January 23, 2015 TOPIC: OBJECTIVE: SUPPORT: LOCATION:	<ul> <li>Sandeep Mittal, MD         Assistant Professor of Neurosurgery         Department of Neurosurgery         Wayne State University School of Medicine         Detroit, MI      </li> <li><i>"Role of the Immunosuppressive Kynurenine Pathway in Brain Tumors"</i> <ol> <li>Describe the kynurenine pathway of tryptophan metabolism. 2. Target Audience: Neurologists, Neurosurgeons, Neuroradiologists, Pediatricians, Psychiatrists, WSU/DMC Practicing Physicians, WSU/DMC Faculty, Fellows, House Officer, Medical Students, Nursing Staff, and Allied Health. The Wayne State University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Wayne State University School of Medicine designates this live activity for a maximum of <u>1.5</u> AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity
