WAYNE STATE UNIVERSITY SCHOOL OF MEDICINE Department of Neurology 8D UHC GRAND ROUNDS

September 2011

9:00am – 10:00am, Lecture
10:15 am – 12:00 Noon, Morbidity & Mortality Conference, September 9, 2011 ONLY

September 2, 2011 Graham C. Parker, PhD
Assistant Professor -Research
Department of Pediatrics, Children's Hospital of Michigan
Wayne State University School of Medicine
Detroit MI

Detroit, MI

TOPIC: "Ethics and Stem Cell Therapy"

OBJECTIVE:

The audience will obtain an understanding of our current conceptions of what constitutes a stem cell, an appreciation of the shortcomings of how we currently represent advances in stem cell research, and a discussion of some concerns with the translation of stem cell treatments with particular regard to neurology.

SUPPORT:

No Commercial Support Harper University Hospital - Kresge Auditorium LOCATION:

William Coplin, MD Associate Professor September 9, 2011

Department of Neurology and Neurological Surgery Wayne State University School of Medicine

Detroit, MI

TOPIC: "BP Management in Neuro Critical Care"

OBJECTIVE: **TBA**

SUPPORT:

No Commercial Support Harper University Hospital - Kresge Auditorium LOCATION:

September 16, 2011 Micheál P. Macken, MD

Assistant Professor Department of Neurology

Northwestern University, Feinberg School of Medicine

Chicago, IL

TOPIC: "Pharmacoresistant Epilepsy"

1. Explore the clinical settings in which a diagnosis of pharmacoresistant epilepsy is **OBJECTIVE:**

erroneously assigned. 2. Review the genetic and molecular basis of true pharmacoresistance. 3. Survey the latest options, pharmacological and otherwise, available to treat the patient with pharmacological epilepsy.

SUPPORT:

No Commercial Support Harper University Hospital - Kresge Auditorium LOCATION:

TO BE ANNOUNCED **September 23, 2011**

TOPIC: OBJECTIVE: SUPPORT:

John D. Dingell VA Medical Center Lower Level Auditorium
Linda Selwa, MD
Professor of Neurology
Associate Chair for Clinical Activities
Department of Neurology
University of Michigan
Ann Arbor MI LOCATION:

September 30, 2011

Ann Arbór, MI

"New Horizons in Epilepsy Treatment" TOPIC:

OBJECTIVE:

1. Become aware of new medications in trial or newly approved for refractory epilepsy, and their putative mechanisms of action. 2. Understand the importance of models of seizure detection and quantitative EEG to several new treatments for epilepsy. 3. Be able to describe several new surgical intracranial options for patients who are not eligible for focal resection of an epileptogenic zone.

SUPPORT:

No Commercial Support Harper University Hospital - Kresge Auditorium LOCATION:

Target Audience: Neurologist, Neurosurgeons, Neuroradiologists, Pediatricians, Psychiatrist, WSU/DMC Practicing Physicians, WSU/DMC Faculty, Fellows, House Officer, Medical Students, Nursing Staff, and Allied Health.
